- Restart both Outlook and QuickBooks.
- Verify Outlook profile settings.

QuickBooks Update Required

Running an outdated version of QuickBooks may prevent invoices from sending correctly.

Signs of the Issue

- Sending worked previously but suddenly stopped.
- Multiple email-related errors.
- Missing security updates.
- Frequent application crashes.

How to Fix It

- Install the latest QuickBooks updates.
- Update Windows.
- Restart the computer after updating.
- Download any available maintenance releases.
- Retry sending the invoice.

Internet or Firewall Blocking Invoice Delivery

Network interruptions or security software may interfere with QuickBooks email services.

Signs of the Issue

- Connection timeout.
- Email sending fails intermittently.
- Online services unavailable.
- QuickBooks cannot connect to the internet.

How to Fix It

- Check your internet connection.
- Temporarily disable firewall for testing.
- Allow QuickBooks through your firewall.
- Restart your router.
- Verify proxy settings if applicable.

Repair Damaged QuickBooks Components

Corrupted program files can affect invoice delivery.

Signs of the Issue

- Multiple QuickBooks errors.
- PDF generation fails.
- Email attachment missing.
- QuickBooks crashes while sending.

How to Fix It

- Run QuickBooks Tool Hub.
- Use Quick Fix My Program.
- Repair the QuickBooks installation.
